

# MYTH of the Month

## MYTH FACT

NCBA only represents producers in the cattle-belt states.

NCBA has members in 49 of the 50 states. Rhode Island is the only state without NCBA members. All members in the other 49 states have a voice in the organization through the NCBA Member Mail Ballot process.

We know  
you hear  
statements  
you know are  
not correct,  
but just  
don't have  
the facts to  
respond.
