

# MAKE RANCHING MORE PROFITABLE

Created in collaboration with Ranch Management Consultants, Noble Profitability Essentials incorporates the principles of Ranching for Profit to teach ranchers business strategies to better understand and improve your current financial situation.

**Noble Profitability Essentials** is a 2-day course that teaches producers to understand enterprises, calculate the gross margin of those enterprises and identify overheads – all while creating an accurate picture of your profit and loss. You'll gain financial tools that will simplify your planning and increase your ranch's profitability.

*\*This course is brought to you by the California Rangeland Conservation Coalition and the California Grazing Lands Coalition, with the generous support of TomKat Ranch.*

**Enroll Now!**

Take control of your ranch's financial future!
